Twenty-Four Consulting

WE DO TRAINING.

Company Overview

About

Twenty-Four Consulting PLT

Established February 2024, Twenty-Four Consulting PLT is a training and consulting company that helps businesses and teams grow in today's fast-moving digital world. With over 20 years of experience in the tech industry, we create customized, hands-on training programs and consulting services to meet the unique needs and goals of each client.

We believe that training should be practical, tailored to your needs, and useful in real-life situations. We are committed to making sure our clients get the most value from their training investments.

Our **Mission**

To help our clients succeed by offering practical and effective training and consulting solutions that work in the real world.

Our **Vision**

To train 10,000+ Professionals by 2025. We aspire to be the top choice for innovative and personalized training solutions that change organizations for the better and boost their skills.

Our Services

CUSTOMISED TRAININGS

Digitalization, Cloud Computing, AI, End User, and more.

Flexible and customizable to meet the specific needs and skill levels of your team.

WEBINARS & WORKSHOPS

Cover a wide range of topics such as automation, etc.

Hands-on approach ensuring participants can immediately apply what they learn.

CONSULTING SERVICES

Personalized consulting to help organizations tackle IT challenges and improve efficiency.

Focus on diagnosing issues, designing custom solutions, and supporting implementation.

SPEAKER SERVICES

Our founder, Ali Reza, is available for hire as a speaker or judge for your events.

Ali Reza has been hired as a speaker and judge for various events, such as APU hackathon, MDEC events, etc.

Our Training Approach

The 3-Step Process

1. Diagnose

Understanding Your Needs

We start by understanding your specific challenges and goals. This allows us to tailor our training programs to meet your exact needs.

2. Customise

Tailoring the Right Solution

Our programs are designed to be flexible and relevant, ensuring that the skills you gain are directly applicable to your work.

3. Implementation

Ensuring Real-World Impact

We don't just stop at training. We follow up to ensure that the skills you've learned are being effectively implemented in real-life situations.

What Makes Us Special

The 2 principles

1. We truly care about customer experience

When's the last time any training provider followed up with you?

We take the time to truly understand your needs and goals. We follow up with you, providing ongoing support and presenting you with personalized upskilling journeys.

2. We focus on design & customisation

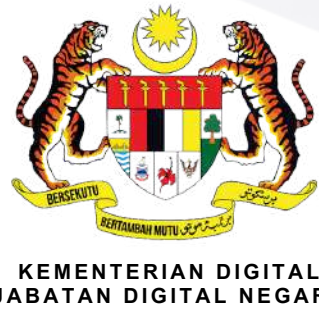

We design everything for your best experience.

Your experience with us is our priority. From our website to proposals and training decks, everything is meticulously designed with you in mind. We blend aesthetic and functionality to make your journey seamless, enjoyable, and successful.

Topik Kursus Sangat Menarik

Gen AI Training

Terbaik..terbaik..terbaik. Terima kasih Mr.Ali Reza rajin melayan setiap pertanyaan dari kami. Topik kursus sangat menarik. Terima kasih!

BEST AI Class I've been so far.

Gen AI Training

The BEST AI Class I've been so far. Thanks to Twenty-Four Consulting team, appreciated it.

Worth attending the course!

Gen AI Training

Worth attending the course! I had learnt a lot of AI tools which I can indeed apply straight away in my daily works!

Penyampaiannya jelas dan tak boring

Gen AI Training

Latihan ni memang best! Penyampaiannya jelas dan tak boring, senang nak faham konsep yang diajar. Paling syok sebab boleh tanya soalan dan discuss sama-sama. Team trainer memang buat kerja bagus, rasa puas hati sangat. Lagi best, trainer guna dwibahasa English dan Melayu, jadi semua orang senang follow.

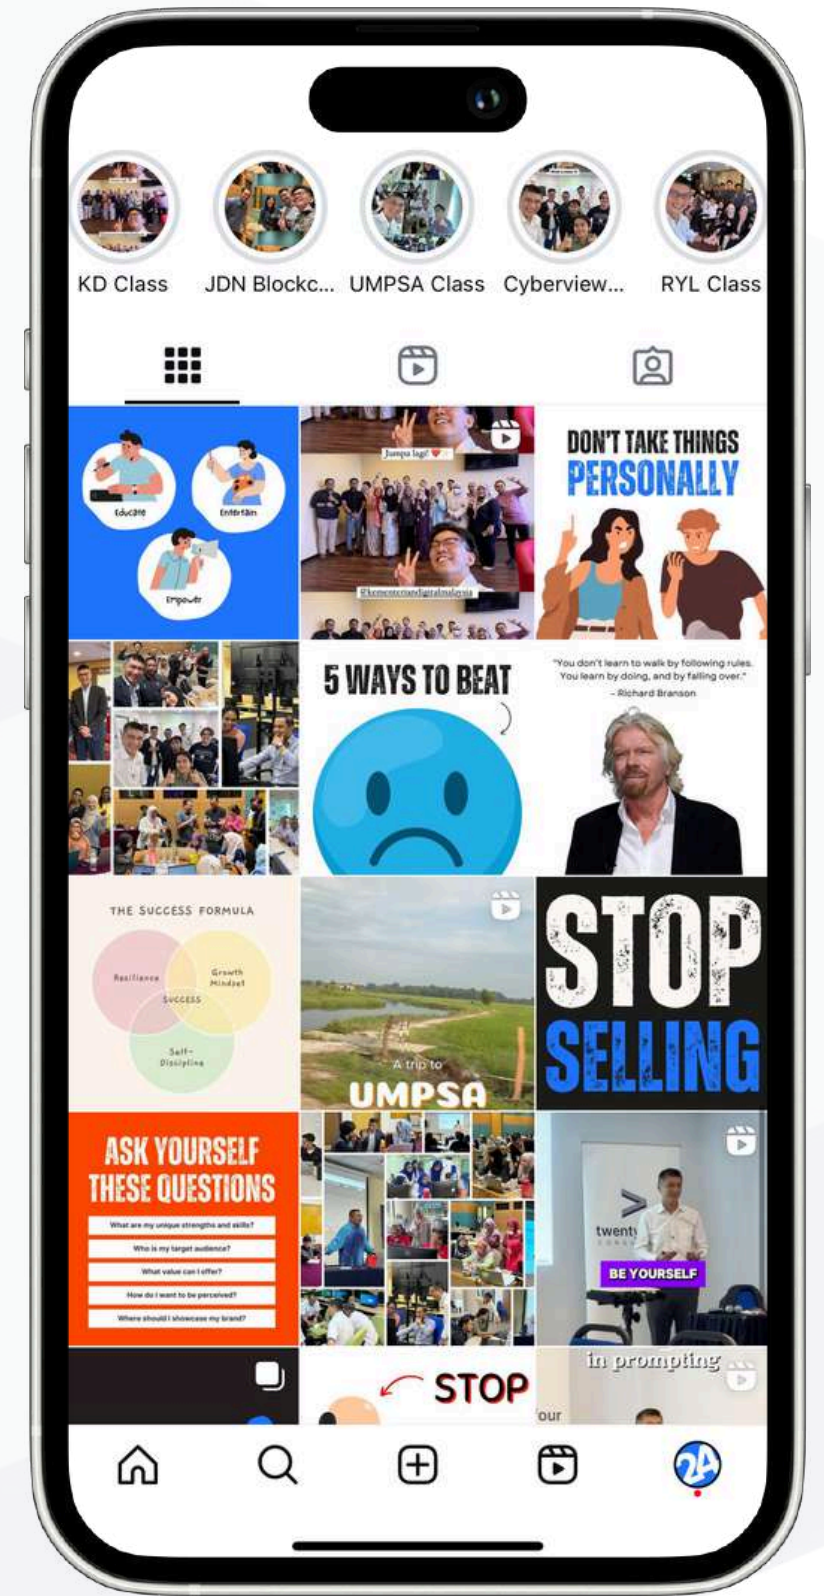

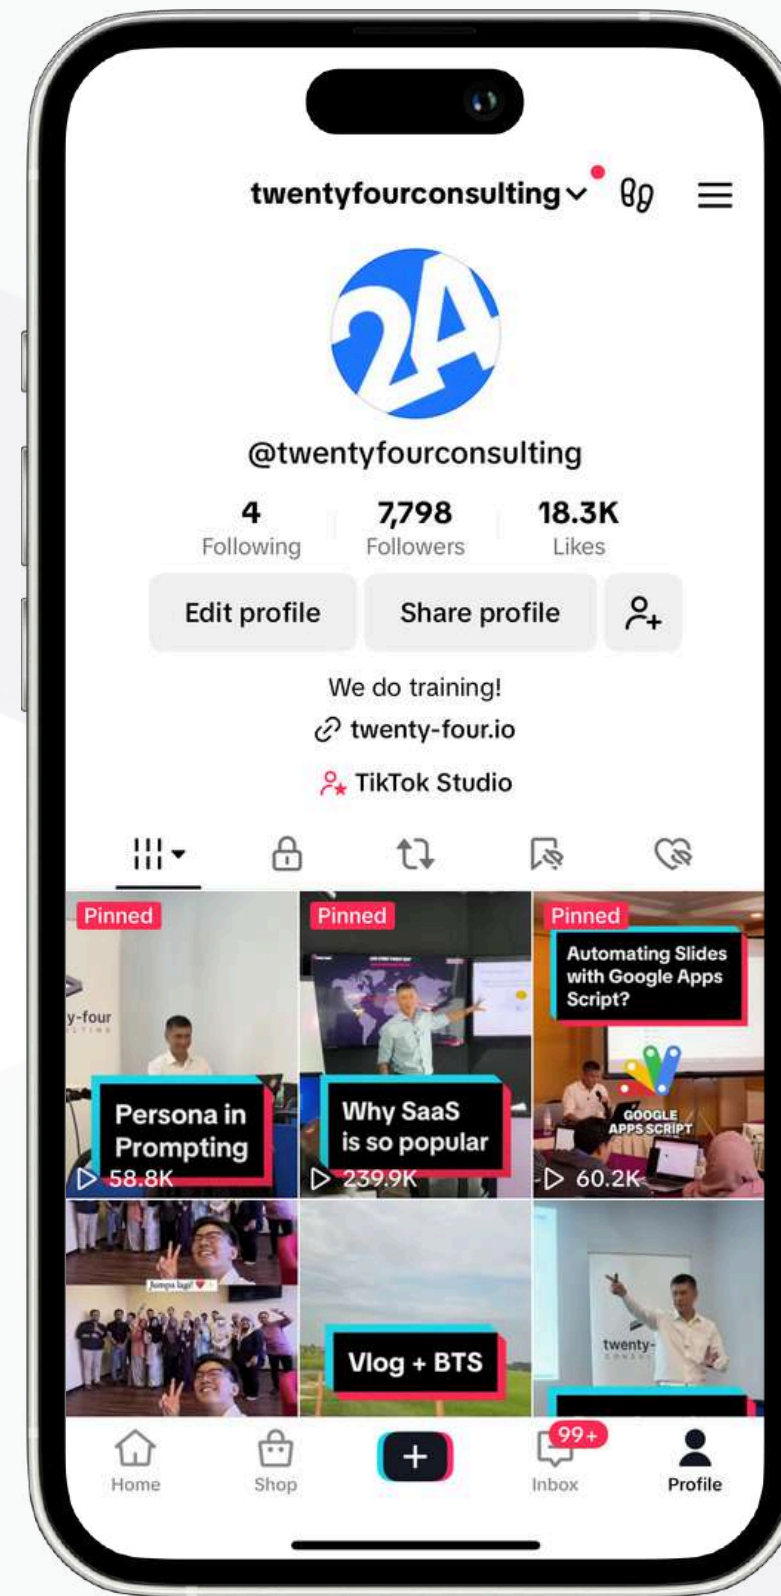

AI dan Google App Script Sangat Berguna untuk Mengautomasikan Kerja Rutin

Gen AI Training

Kursus yang sangat bagus! Saya mendapat banyak ilmu baru mengenai AI dan cara-cara untuk mengapikasi teknologi AI dalam pelbagai aspek kehidupan Sama ada peribadi ataupun dalam kerjaya. Saya juga dapat mengetahui mengenai penggunaan google app script yang dapat mengautomasikan pelbagai kerja-kerja rutin. En. Ali juga sangat membantu dan dapat menyampaikan ceramah dengan sangat Baik dan juga kelakar kadang-kadang.

Social Reach

At Twenty-Four Consulting, we're driving real change by sharing practical, real-world knowledge and skills across all major social platforms.

APPENDIX

Course Catalog

1. Gen AI Essentials: Skills for the AI-Powered Workplace (2 Days)

Our most popular course, this program introduces participants to the practical applications of generative AI in the workplace. Designed for non-technical users, it covers foundational prompting skills, using AI tools to streamline tasks, and enhancing productivity. Participants will learn how to use AI for tasks such as drafting documents, generating reports, and brainstorming ideas. Through hands-on activities, they will gain confidence in using AI to save time, improve efficiency, and make work more enjoyable.

2. Google Apps Script (2 Days)

This course provides a practical introduction to automating tasks using Google Apps Script. Participants will learn how to enhance productivity by building custom functions, automating repetitive tasks, and integrating Google Workspace applications. The training includes hands-on exercises for creating scripts that work seamlessly with Google Sheets, Docs, Forms, and Gmail. Ideal for end users looking to simplify their workflow with minimal coding experience required.

Course Catalog

3. Google Workspace Mastery (2 Days)

This course covers essential tools in Google Workspace, including Gmail, Google Drive, Docs, Sheets, Slides, and Calendar. Participants will gain insights into effective collaboration, document sharing, cloud storage, and team communication. The course is designed to help non-technical users get comfortable with Google Workspace, enabling them to work more efficiently within a digital environment.

4. Canva for Business (2 Days)

Learn how to use Canva, a user-friendly design tool, to create professional-looking graphics for presentations, social media, and marketing materials. This course covers design basics, branding, and tips for creating visually appealing content without the need for complex design software. Participants will walk away with practical skills in creating graphics that stand out, even with no prior design experience.

Course Catalog

5. Blockchain Basics (1 Day)

Explore the fundamentals of blockchain technology and its potential impact on industries in this concise one-day program. This course provides an introduction to how blockchain works, the concept of decentralised ledgers, and the benefits of secure, transparent transactions. Through practical examples, participants will learn about blockchain use cases beyond cryptocurrency, including supply chain management and identity verification. Perfect for end users interested in understanding emerging technologies.

6. Cloud Computing Fundamentals (1 Day)

This one-day course provides a quick overview of cloud computing for non-technical users. Participants will learn about basic cloud concepts, including storage, computing power, and on-demand resources. The course will cover Google Cloud and other major platforms, providing insights into how cloud solutions can enhance business agility and collaboration.

7. Cybersecurity Awareness (1 Day)

This one-day program focuses on essential cybersecurity knowledge to help participants protect themselves and their organisations. Key topics include identifying phishing attempts, securing accounts, creating strong passwords, and understanding the importance of regular software updates. Ideal for end users who want to understand basic security principles and practices.
