Overview

This one-day program demystifies cloud computing for senior management, showcasing how it boosts productivity, scalability, and collaboration without deep IT expertise.

Through real-world examples and discussions, participants will uncover the "hidden power" of the cloud and its potential to transform business and public sector operations.

By the end, participants will be ready to identify opportunities and make informed decisions about adopting cloud solutions.

Course Objectives:

- Simplify cloud computing and its practical impact.
- Highlight hidden benefits for business and government.
- Explore real-world cloud applications and workflow opportunities.
